# WARM WELCOME

For your entrance

## 01 Mirror Image

Personalize your mirror by tucking colourful paint chips and fabric swatches (in fun patterns and pretty springtime shades) into its frame.

## 02 Front Runner

Top your console with a quick and easy runner made of vibrant striped wallpaper that can change with each season. Line the shelves inside with the same paper.

Febreze Fabric Refresher sprayed on your entry way area rug removes odours and leaves behind an inviting scent. Create a welcoming atmosphere with Febreze NOTICEables plug-in air freshener, which automatically alternates between two complementary scents all day.

# FOOD FOR THOUGHT

In your kitchen

## 03 Sage Advice

Create a mini indoor garden with fresh herbs planted in pretty white pots. Evoking warm summer months, the herbs, which add a revitalizing hit of green, can be used all winter long in your recipes.

## 04 Throw in the Towel

Adding a crisp new set of tea towels is a simple way to infuse the kitchen with colour. Go for a culinary theme: look for ones with vintage veggie or fruit motifs.

Mini Garden: Sarah L. Hill (see pillow). Designer: Sarah L. Hill. Wallpaper: Graham & Green.

Use Febreze Air Effects to eliminate persistent odours in the kitchen and keep the air smelling noticeably fresh. Febreze Candles eliminate odours while adding a light, fresh scent and hint of cheerful colour.

# LET THERE BE LIGHT

In your family room

## 05 Change of Art

A series of white-framed watercolour paintings hung in a row above the sofa creates an inspiring focal point and enhances the airy feel of the room with its fresh blue colour scheme.

## 06 Made in the Shade

Replacing dark lampshades with white linen ones brightens a space in more ways than one. Not only are they a lighter decorative touch during the day, but also emit more light when you turn on your lamp at night.

## 07 Pillow Talk

Enliven a dark neutral sofa by replacing the back cushions with generous linen throw pillows in shades of taupe and oatmeal. For extra cosiness, layer them with smaller pillows in icy shades of blue.

## 08 Following a Pattern

Roll out a colourful patterned area rug in the winter. It makes a strong decorative statement while giving the room warmth and creating softness underfoot.

Eliminate odours trapped in sofas, carpets and pillows and leave a light fresh scent with **Febreze Fabric Refresher**. **Febreze NOTICEables** plug-in air fresheners, with two complementary scents, give your living room a relaxing, long-lasting fresh smell.

Fabric (on pillows), Designer Fabrics; artwork, Art Interiors; area rug, floor lamp, coffee tables, throws (on sofa), Elite pillows designed by Sabinatinn.com.

# SUITE LIFE

In your bedroom

## 09 Flower Power

Create a fresh focal wall behind your bed by using spring-inspired wallpaper. Scour your local paint and paper dealers for fabulous vintage-style remnant rolls.

## 10 Go With the Glow

Line an ordinary white lampshade with rose-coloured paper (use the kind made specifically for lamps) to infuse your room with a soft, romantic glow this winter.

**Febreze Candles**, which come in decorative glass votives, provide a relaxing touch in the bedroom. Use **Febreze Fabric Refresher** to give bed linens a restful, clean scent.
